Channelz Effectz Service

Tired of all that colored Coolant clogging up your loop but don't want to stick with some boring old clear coolant? Well Performance-PCs has you taken care of with their new Channelz Effectz Serivce! This service is a great way to add some color to your Channelz distribution plate without clogging your loop with pastel or

mica filled coolants. We use an epoxy resin mixture that is safe for your loop and will certainly help that build POP. There is 30 different super vivid color options to choose from and we even added the ability for you to mix colors to give your loop its own style.

Features

Installation:

This Distro is designed to replace the Front Panel glass . Simply remove the original Front Panel and replace with the distro.
