Short Description

Alphacool's Eiszapfen connector series is the high-end execution of these tried-and-true fittings!

Description

Alphacool's Eiszapfen connector series is the high-end execution of these tried-and-true fittings!

Everything you want in a compression fitting is here: highflow, form, processing and colour. A refusal to compromise in development and production has made the Eiszapfen series into what it is.

Features

A special procedure binds the outer coating firmly to the surface, improving the longevity of the intense colour and preventing any chipping or peeling of the coating. Every connector now has the Alphacool logo, which along with their distinctive shape makes them unmistakable!

The union nut's slanted corners allow the O-ring to be pressed firmly against the HardTube, ensuring it sits even more securely than before. This allows for greater safety in transport.

Model: 90° compression fitting 13mm

This fitting has a 1/4" thread on one side and is thereby compatible with 95% of components. The other side fits a 13mm acrylic or brass tube. This fitting is bent 90° in the middle to avoid complicated hose connections. The threaded side is rotatable for maximum flexibility.

Specifications

Technical data	
Dimensions (L x W)	42.5 x 21.00mm
Material	brass
Threads	G1/4" OT 13mm (OD 1/2")
Thread length	5mm
Possible rotation	360°
Version	90° angled
Color	white

Additional Information

Brand	Alphacool
SKU	AC-17620
Weight	0.1000
Special Order	No
Fitting Type	Rigid Compression
Fitting Size	13 mm
Fitting Angle	90 Degree
Fitting Finish	White
Vendor SKU/EAN	4250197176200
