Short Description

The Vantec 2.5" Internal/External HDD Enclosure gives you the flexibility to bring your storage with you quickly and easily without having to deal with numerous cables. When at home, just insert the enclosure into the rack and you will instantly have a high speed SATA connection to your drive. If you need to take it with you, just eject the enclosure, grab the included USB cable, and you'll still have access to all of your data while on the road.
