

Husky® 3-LED Head Beam

\$17.95

Product Images

Short Description

High-tech LED headlamp for hands-free. Equipped with 3 bright LED bulbs - 2 white bulbs for super bright light, and 1 red bulb for night vision - with shatterproof lens. 3 position sliding switch. Pivoting directional light lets you point the light right where you need it. ABS plastic housing for extra durability. Runs on 50 hours between battery changes. Includes adjustable headband and 3 AAA batteries. This light is also the perfect light for DIY and computer builders that need the extra light while working on their system. Light is small enough to hang inside your case and have it handy for those little installs, repairs or projects! Technical customers who maintain computers say this product is invaluable for crawling under dark desks and behind computers having both hands free with plenty of bright white light focused on the work area.
