

# Silverstone Technology KL01B Kublai series Performance Tower Chassis - Black

Special Price  
**\$99.99** was  
**\$139.00**

## Product Images

## Short Description

---

The Kublai series performance tower chassis are made for computer enthusiasts that require a finely balanced system with cooling and quietness but without the extra features from the flagship Temjin series chassis. Constructed with steel body and aluminum front panel, the Kublai tower chassis retains the best qualities from both types of metal. The KL01 has a sleek front door that is designed and finely finished in the same method that follows SilverStone's Temjin series. Even with a traditional interior layout, the chassis is highly organized and tuned to deliver great cooling performance for any modern components with a pair of standard 120mm fans. For those looking to build a medium sized system with high quality enclosure, the KL01 is an excellent choice.
