Arctic Cooling Turbo Module for Accelero S1 & S2

Special Price
$3.99 was
$9.95

Product Images

Short Description

Product Details:

Boost up your passive cooling
Turbo Module is an ultimate cooling add-on for enthusiast gamers. The Turbo Module increases the potential power of Accelero S1 and S2 with enhanced cooling performance under extreme quiet operation. Turbo Module helps boost up the GPU and memory overclockability, squeezing more graphic performance than ever before.
Features:

- Dual High Performance Fans
- Enhance Cooling Performance
- Extremely Quiet
- High Reliability
- Easy Installation
- Low Weight
- Long Lifetime
- 6 Years Warranty

Designed for Overclocker
Featuring dual high performance low noise fans, Turbo Module was designed to work together with Accelero S1 and Accelero S2 – the widely adopted and award winning passive cooler for numerous ATI and nVIDIA graphic cards. The optimized fan speed dramatically reduces the temperature of GPU, RAM and Voltage Regulator. Turbo Module especially reinforces the PC case overall ventilation, and its clip-on design allows for easy installation.

Noise Level:

Temperature:

Specifications:

Fan:	80 x 80 x 15 mm (each)
Fan Speed:	1500 RPM
Air Flow:	42 CFM

Bearing:	Sleeve Bearing
Plug:	3 pin plug (with power plug convertor)
Weight:	35 g (each)
Warranty:	6 Years
