Short Description

Product Details:

Stay Equipped. Stay Cool.

With The Stacker Series Cases From Xion

The Stacker Series Cases from Xion are meant for business. Featuring room for a significant amount of the largest PC components and the hardware necessary to keep that equipment cool, these PC cases are a cut above the competition. The chassis is built out of steel, with a stylish aluminum door to round out the industrial feel of this PC case! Two USB connections, one S/P connection, and one MIC connection located on the top of the case for easy access, and more make this the perfect backbone to your serious PC!

Pack Your Machine To The Brim!

The 12 total drive bays break down like this: eight 5.25-inch external bays, one 3.5-inch external drive bay, and three 3.5-inch internal bays, including a removable hard drive bay! There are three 120mm fans and a 120mm air duct, all dedicated to keeping this case cool. Workhorse 120mm fans located on the side and rear of the case do their duty silently and efficiently, while a front mounted 120mm blue LED fan casts illumination on the job while it works! There are also 7 expansion slots, so that your PC is ready for whatever the future brings with it! If you like to pile up equipment when building your machine, then the Stacker series ATX cases are just what you've been waiting for!
