## Short Description

---

Need a sleek, handsome chassis that's equally at home in the corporate boardroom or your home entertainment center? Take a look at our new Cooler Master CM690. This versatile SLI-ready case offers rugged yet attractive SECC steel construction, the flexibility to house both Micro-ATX and ATX motherboards, and lots of drive bays and expansion ports to satisfy the needs of gamers and multimedia extremists.

## Description

---

Need a sleek, handsome chassis that's equally at home in the corporate boardroom or your home entertainment center? Take a look at our new Cooler Master CM690. This versatile SLI-ready case offers rugged yet attractive SECC steel construction, the flexibility to house both Micro-ATX and ATX motherboards, and lots of drive bays and expansion ports to satisfy the needs of gamers and multimedia extremists. The Cooler Master CM 690 features five (5) exposed 5.25-inch drive bays, an exposed 3.5-inch bay, and an I/O panel that includes two (2) USB, and one 1394 port, plus MIC and eSATA connections, as well as a speaker port that supports HD audio. Because cool is part of the Cooler Master name, this sensational case keeps heat at bay with a front 120mm blue LED fan running in 21 dBA silence at 1200rpm, along with plenty of places to put optional fans (please see complete specifications below). Whether you're playing games, running a complete multimedia entertainment center, or a professional getting down to business your system will be right at home in the Cooler Master CM 690 computer case.
