

Hiper Super Premium EMI Shielded HiperLink for Digital Media HDMI Male/Male Cable - 6'

\$24.95

Product Images

Short Description

Product Details:

This is by far one of the most premium HDMI cables on the market! It is EMI shielded and has a purple mesh sleeving that made all of us here say WOW! If you are the type that only buys the best cables for all your computer, HTPC, and audio needs this is the one for you! If you compare competitors cables from companies like Monster and Belkin that are \$75.00-\$100.00 each this cable obliterates their price with the same premium quality at a fraction of the cost. Oh, and did we mention these cables are absolutely gorgeous???

HDMI, also known as High-Definition Multimedia Interface, is capable to stream 1080p high-definition video and audio through "ONE" cable. Once converted by the D/A (digital/analog) converter, it provides bright and vibrant displays, along with uncompressed high quality audio. Most importantly, it prevents uncontrollable tangle of wires and connection headaches.

Features:

- Fully supports HD 1080p.
- HDMI 1.3 compliant.
- Transfer rate up to 340 MHz (10.2Gbps).
- High quality AWG 24 wire.
- Gold plated connector for excellent conductivity.
- Full tinned copper braid plus aluminum foil shielding for maximum isolation from EMI.
- ROHS compliant

Applications:

[Product Datasheet](#)

Specifications:

Connector Type	HDMI Male
Input/Output	Input/Output
Gold Plated Connector	Yes
Magnetic Filter	HIPER Purple
Wire Size (AWG)	AWG 24
Cable Length	1.8m
Cable diameter	OD10
Sleeve	HIPER Purple
Shielding	100% tinned copper braid + Al foil shielding
Cable Jacket	Transparent
Connector Type	HDMI Male
Input/Output	Input/Output
Gold Plated Connector	Yes
Magnetic Filter	HIPER Purple
