

Hiper Anubis (HTC-1 K614) 6063 T5 Alloy Aluminum Premium Mid Tower Chassis - Black

\$249.95

Product Images

Short Description

Product Details:

Milton Keynes/Dornach. Anubis is the name of the ancient Egyptian God of Death and the name of the 1st ATX case ever from HIPER. As expected, HIPER does not come up with something usual: This case is entirely constructed out of high quality 3mm thick aluminum 6063 T5 alloy, weighing in at over 10kg. What makes this case different to the other alloy cases is in the manufacturing process of the jointing method. The panels are alloy welded together creating a much stronger structure to withstand over 100kg compared to the cheaper riveting method, where not only becomes a weaker point, but allows the entire structure to bend. The case comes pre-modded with a side window and is probably the only case with a window to pass EMI testing, so is perfect for any system builders.

This case has been designed with thermal issues in mind and the HUGE heatsinks on top of the case help dissipate the conducted heat from inside the case. HIPER even supplies a brush for cleaning dusts out of them!

The sidepanels assembling is completely screwless and the drive-bay mounting is also tool-free. A stylish top function panel gives you comfortable usage. And even the most design oriented user will be convinced by the quality of the diamond laser cut trimming.

An additional functional detail among others is the removable modular HDD rack with dedicated fan mount for optimized cooling. As a bonus for the end user who eventually owns this case, there is a limited edition Anubis keyring supplied inside. Anubis is both a cutting edge design and top-quality pc chassis for design enthusiasts and gamers.

- Constructed with 100% 6063 TS Alloy
- Patented welding technology
- Ultra heavy duty construction is capable to withstand weights up to 100kg
- Support XL ATX power supply
- Free travel PAK, cleaning brush and Anubis key ring.

Features:

- Top 12cm fan for optimized heat dissipation.
- Screwless latched side panels HIPER-styled mesh see-through side panel.
- Tool-Free Driver Bay installation.
- Rear retaining holes for liquid cooling kits.
- 4 adjustable feet.
- Stylish top function panel.
- Patented welding technology.
- Stealth style front door.
- Diamond laser cut trimming.
- Removable Modular HDD rack with dedicated fan mount.

Specifications:

Category	Specification	ATX Mid Tower Case
I/O panel	USB 2.0	2
	Audio in	1
	Audio out	1
	line in	1
	Floppy	1
Driver Bay	5.25" (Exposed)	6
	3.25" (Modular Rack)	4
Motherboard	Form Factor	ATX / MicroATX / FlexATX / ITX
Power Supply	Form Factor	Standard ATX / EPS 12V
Material		6063 T5 Alloy
Dimension		522(L) x 202(W) x 475(H) mm
		20.6" x 8.0" x 18.7"
Net Weight		10.7 Kg

Reviews:

Date	Country	Category	Model No.	Review Link	Awards	Comments
27 Sep 2007		Tower case	HTC-1K614		Gold Award	HIPER Anubis is honored to receive the very 1st gold award ever given to a case from www.froggytest.com

20 Sep 2007		Tower Case	HTC-1K614		 Recommended Award  Rating 8.5 Award	The Anubis is definitely one the best cases I've ever had the pleasure of working with.
