Short Description

This cable is very handy when you want to lower the speed and noise of your 12V fan but are unsure of what voltage is best for you and you dont want the expense or give up the space for a larger fan controller.

Description

Product Details:

This cable is very handy when you want to lower the speed and noise of your 12V fan but are unsure of what voltage is best for you and you dont want the expense or give up the space for a larger fan controller. Now with this multi-volt cable you can take a 4-pin Molex from your PSU and convert it to 3 separate 3-pin male connectors that run at 5V, 7V, and 12V. Fan cable is sleeved in black sleeving. This is a great cable everyone should own a few of!
