

Split Loom Insertion Tool (1/2"-5/8" loom size)

\$6.95

Product Images

Short Description

When you want an easier way to feed corrugated slit loom onto a bundle of wires, reach for one of these loom insertion tools. To use, simply twist the white portion so that its cut-out matches the orange portion cut-out. Lay your wires inside, then twist to lock wires in place. Insert the angled portion into the slit loom, and slide the tool along the length of the slit loom run. When complete, unlock the wires by twisting the tool again. Perfect for repetitive applications!
