Short Description

The Vantec PC & Notebook Security Combination Cable Lock is literally bolted-into your computer's VGA or Serial port. It protects your computer with 2 steel bolt that cannot be accessed, with 6'6" steel cable sheathed in black PVC, and included security plate gives you the option of securing the cable to an area without a convenient attachment point. Its 4 position keyless combination lock gives you up to 10,000 different user-defined combination possibilities meaning you will never have to worry about lost keys.
