

# SilenX IXC-92HA1 92mm Blue LED Copper/Aluminum Silent CPU Cooler - Sleeved

Special Price

**\$21.95** was  
**\$32.95**

## Product Images

## Short Description

---

For those in the modding scene, you know it's been pretty difficult to incorporate silence into your designs. So we just made it one step easier. The iXtrema Pro 92mm LED heatpipe heatsink offers LEDs to brighten up any system...and of course, you don't have to sacrifice any performance from our heatsink while at it.

## Description

---

For those in the modding scene, you know it's been pretty difficult to incorporate silence into your designs. So we just made it one step easier. The iXtrema Pro 92mm LED heatpipe heatsink offers LEDs to brighten up any system...and of course, you don't have to sacrifice any performance from our heatsink while at it. Cool even the most hottest processors on the market at very low noise...without the need for the mess of exotic watercooling. The heatpipes are among the first in the industry to directly touch the CPU surface for optimal thermal dissipation. There might be higher performance heatsinks out there, but none can do it at the noise levels this little heatsink can. It weighs under the 450g requirement for Intel and AMD mounting retention mechanisms and does not require removal of the motherboard to install. In fact, it is probably one of the

easiest, quickest and most painless installation procedure for any heatsink out there today! Includes a fan controller for precise manual control over the fan noise.

## Features

- Ultimate airflow to noise ratio
- 92mm silent fan
- Blue LED's
- All copper and aluminum construction

Forward sweeping fan blade design increases static pressure compared to other silent fans and offers better airflow in areas where ventilation is restricted.

Reduced motor size and conical shape allows for the largest blade surface area of any fan and improves aerodynamics compared to the cylindrical dead-spot of other silent fans.

Maximum surface area for better heat dissipation compared to any other heatsinks out on the market today. Rippled surface on some models further enhance heat dissipation.

## Specifications

sku	IXC-92HA1
rated dba	9-18
dimensions	92.4x69.2x110.8mm
base material	Copper Heatpipes, Aluminum Plates
fin material	Aluminum Fins
fin surface area	4200cm <sup>2</sup>
weight	445g
rpm	1100-2000
cfm	24-52
current draw	0.16-0.24A
power consumption	1.92-2.88w
bearings	FDB, fluid dynamic bearings
cpu compatibility	Socket 754, LGA775, 939, 940, AM2

## Additional Information

Brand	SilenX
SKU	IXC-92HA1-D
Weight	2.0000
Material	Copper/Aluminum
Fan Dimensions	92mm
Fan Connection	4-Pin PWM
LED Color	Blue
Special Price	\$21.95
