Short Description

Product Details:

The ultimate in airflow to noise ratio, iXtrema Pro Quiet Fans are the only fans in the industry to be designed with silence and optimal airflow in mind. Smaller, domed motor hub, larger, more dramatic fan blade sweep area, no other fans on the market come even close in performance! There might be fans that offer more airflow or lower noise levels, but when it comes to a balance between the two, these fans can't be beat.

Features:

- Ultimate airflow to noise ratio
- Silicone fan mounts included
- Beautiful colored LED lighting!

	Forward sweeping fan blade design increases static pressure compared to other silent fans and offers better airflow in areas where ventilation is restricted.
	Reduced motor size and conical shape allows for the largest blade surface area of any fan and improves aerodynamics compared to the cylindrical dead-spot of other silent fans.
	Silicone-composite fan mounts dampen motor vibration and prevents resonance or so-called "case rattle" caused when fan vibrations reaches the chassis.

Specifications:

sku	IXP-74-14B
rated dba	14
dimensions	120x120x25mm
rpm	1400
cfm	72
operating voltage	8-14v
current draw	0.18A
power consumption	2.16w
bearings	FDB, fluid dynamic bearings

Fan cable is fully covered in nylon Techflex sleeving and premium heatshrink, colors of your choice.
