Short Description

Sometimes working with small items and micro-parts makes you feel like you could use a helping hand; this ingenious tool actually gives you four: two spring-loaded clamps for holding wires, parts or tools plus a hands-free magnifying glass and even a fully-adjustable light source. 100,000 hour-life LED lights for hours with 1 AAA battery (included), produces bright white illumination with the head of incandescent bulbs. 4" support bar with 3" clip-arms, 2" magnifier arm and 10" total-length LED light.

Description

Sometimes working with small items and micro-parts makes you feel like you could use a helping hand; this ingenious tool actually gives you four: two spring-loaded clamps for holding wires, parts or tools plus a hands-free magnifying glass and even a fully-adjustable light source. 100,000 hour-life LED lights for hours with 1 AAA battery (included), produces bright white illumination with the head of incandescent bulbs. 4" support bar with 3" clip-arms, 2" magnifier arm and 10" total-length LED light.

Features

- Incredibly handy for electronics repair, jewelry and bead work, model making & hobbies
- Two fully-articulating spring clamps act as extra hands to hold parts, wires or tools
- 2-1/2" 2X magnifying glass gives clear view of fine details; 4-way adjustment
- Super-bright LED light with 5" flex-neck fits in pivot stand or use separate; pocket clip
- Chrome-plated steel with heavy-weight cast-iron stand for extra stability
