Short Description

Product Details:

Lian Li has more than 20 years experience, and continued to develop the new technology, the product quality and design is outstanding. Lian Li persisted to make product in Taiwan, and uses the most outstanding material as well as the most advanced technical manufacture in order to provide modern art high-quality goods.

Lian Li has once again setting the new benchmarks to the PC Chassis, design for the future hardware, for meets professional. Lian Li put a lot of effect on the external finishing, all the external parts in hair-line brush anodized aluminum, and touch up with the diamond cut edges. There are no shape edges, all shape edges have had removed to ensure user' s safety.

The PC-A06 is a case where the PSU is located at the front of the case. There is a very modern design of LED lights in the front board. Small enough to fit almost anywhere!

Big enough to for most hardware requirements.

Lian Li designer looks into detail, PC-A06 equipped anti-vibration kit on the chassis, to absorb the noise. Like the EMI spring on the top cover, and anti-vibration spring on the lower chassis, they absorb the vibration, and the side panel still easy to remove and close. Lian Li also look into the detail, where people won't notice, PC-A06 equipped front panel jointer, it is not only easy to remove the front panel, it also absorb the vibration to front panel. Lian Li patented anti-vibration HDD cage, with anti-vibration kit and special HDD mounting rack. User can easily install the HDD into the cage. And the rubber rings on the HDD, absorb the vibration to stop the noise.

PC-A06 has one 12cm cooling fan in the front, and one 8cm intake fan on the rear. PC-A06 has the power supply units in the front, therefore the

air flow design is unlike standard chassis, it has the rear 8cm fan to intake cool air into the system, and the 12cm fan in the HDD cage exhaust the hot air out of the system, through the vent holes on the front panel.

The easy removable front panel designed for front mount power supply unit. it can removed without tool, just pull to release the door. Multi-media I/O ports location on the top-front for easy access. The I/O ports has four USB ports, one ports, HD+ AC 97 Audio and e-SATA ports. The dust-free cover to keep the connectors clean.

Multi-media ports' connectors follow international specification standard, with one connector for easy installation

Audio supports HD Audio and AC97 Audio design for batter compatibility

Features:

- Anti-Vibration rubber rings
- Anti-Vibration rubber rings
- Multi-media I/O
- Removable front panel
- High quality aluminum switch button
- Removable top panel
- Removable PSU tray

Specifications:

Model	PC-A06A / PC-A06B
Case Type	Mini Tower
Dimensions	180mm x 388mm x 489mm (W,H,D)
Front bezel Material	Aluminum
Color	Silver / Black
Side Panel	
Body Material	Aluminum
Net Weight	5kg/6.67kg
5.25" drive bay (External)	2
3.5" drive bay (External)	1
3.5" drive bay (Internal)	3
Expansion Slot	7
Motherboard	ATX, M-ATX
System Fan (Front)	12cm cooling fan
System Fan (Top)	
System Fan (Rear)	8cm intake fan
I/O Ports	USB2.0 x2, IEEE1394 x1, HD+AC97 audio

A power supply is not included. To purchase a power supply please select from the list below. You can also make this case uniquely yours by using our custom case modification services. Just scroll to the bottom and choose from a variety of options.

Our outstanding quality has earned us ISO 9001 certification for all of our products. In addition, we back up our

quality assurance with a two-year guarantee on most of our products.
