

ENZOTECH

Enzotech MOS-C1 Motherboard/Video Card Mosfet Heatsinks

\$12.95

Product Images

Short Description

Product Details:

Enzotech's first Mosfet product is released, MOS-c1. Like many of Enzotech's products, the MOS-C1 is designed with forged copper technology for maximum surface contact and exceptional heat dissipation.

ENZOTECH MOS-C1 heatsinks were designed to offer exceptional heat dissipation for integrated MOSFET motherboards and video cards. MOS-C1 heatsinks are made using a forged copper process which produces a dense material that is extremely efficient at heat extraction. The MOS-C1 heatsink is far superior to traditional heat sinks currently found on the market and it provides the best thermal conductivity available to dissipate heat from the MOSFET in your system.

Dimensions (mm) 6.5(L) mm x6.5mm(W) x12mm(H)

Material C1100 Forged Copper

Weight	2g (Each)
Thermal Adhesive	3M™ 8815 Thermal Tape (Datasheet)

Features:

- Compatible with all the Motherboards
- Pure forged copper
- Easy installation by using 3M™ 8815 Thermal Tape
- Multipack - Ten (10) piece set

Specifications:

Additional Information

Brand	Enzotech
SKU	MOS-C1
Weight	0.5000
Color	Copper
Material	Copper
Vendor SKU/EAN	4712558090032
