

# SilverStone Sugo SG02W All Aluminum Small Form Factor Case- White

Special Price  
**\$111.96** was  
~~\$139.95~~

## Product Images

## Short Description

---

The SG02 was designed to perfectly mirror the performance and the capabilities of SG01-Evolution, with the same ability to handle high-end graphics cards running simultaneously while keeping the smaller dimension intact. SG02' s front panel material is thoughtfully altered to create a softer and settled impression, slightly modified to a simpler and more modern layout. Its tried and true rear chassis is still capable of accepting larger ATX power supply or optical drives than most SFF cases available. The SG01-Evolution was and is still a great addition for any enthusiast looking to get a powerful yet small workstation or gaming machine. Now with SG02, there are more choices to do the same!
