PrimoChill Ghost Fittings are perfect for old pros and novices alike. Serious performance enthusiasts and case modders will appreciate all the features mentioned above along with the superior high quality craftsmanship and finish. Novice water coolers will appreciate the tool free design that makes getting a leak free installation a lot easier.

Description

PrimoChill Ghost Fittings are perfect for old pros and novices alike. Serious performance enthusiasts and case modders will appreciate all the features mentioned above along with the superior high quality craftsmanship and finish. Novice water coolers will appreciate the tool free design that makes getting a leak free installation a lot easier.

Features

Highlights of the new fittings:

- Shortened thread portion of the fittings to better suit CPU and GPU block depths–this improves flow.
- Removed unneeded wrench flats all together in favor of a much more user friendly tool free knurling. Knurling is Gnarly =)
- O-ring shoulder made with appropriate thickness–as in thinner. Makes for a shorter fitting overall without sacrificing needed length in the barrel portion.
- Tool Free Design*
- Ghost Design**

Specifications

Specifications:

- Material - Nickel Plated Brass
- Thread Size - G 1/4

- Barb Size - 3/8 OD for 3/8 ID Tubing
- Inside Bore Size - .318

- Overall Length - .940
- O-ring Material - Buna 70
- ROHS Compliant - Yes

*Because you use the ultimate reach anywhere tool that you never leave home without–your fingers–you can get to a fitting in most any location inside your case.

**The tubing nearly covers the entire fitting so it is invisible inside the tubing. Being invisible AND beautiful isn't easy, but we managed it. When used with PrimoFlex 3/8 ID x 5/8 OD Tubing or comparable size tubing.

PrimoChill Ghost Fittings are precision machined from solid brass then nickel plated and are 100% manufactured and packaged in the USA—remember, the American job you save just might be yours.
