Short Description

Product Details:

Black LG UH08LS10K SATA 8X Blu-ray Drive Combo, 8x DVD Rewrite, 16x DVD Write, 8x BD-ROM, 4MB Buffer, w/ LightScribe

The UH08LS10 is LG's internal dual format high definition drive that has the capability to read and play different Blu-ray Disc formats. The UH08LS10 also reads and writes in three types of DVD formats in one convenient package - DVD+R, DVD-R and DVD-RAM. LightScribe gives you the added feature of creating customized labels that are etched onto a special coated LightScribe disc (sold separately). Go Blu with the UH08LS10 by LG. This is an OEM product.
