Description

Great new 5.25" bay reservoir from Bitspower. This res has simple mounting and looks plain cool in your case. It only has to be put into an empty 5 1/4 slot. No boring or sawing is necessary. The enclosed air in the cooling system can automatically be released. The reservoir is to be closed with a plug, thus a closed system arises. No water can evaporate which makes the annoying refilling

unnecessary. Includes (2) shiny silver stop plugs and (2) Acrylic LED holders to "Light Up" your Bay Reservoir!

Complete CNC drilled reserves and compensating reservoir made of POM (plastics).
