

Terminal Crimped Wire - Female to Female (6")

\$0.59

Product Images

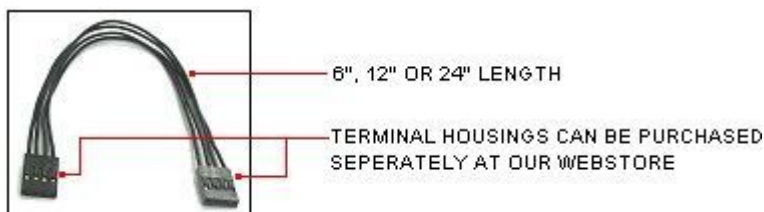

Short Description

Product Details:

This cable is pre-crimped with 0.1" (2.54 mm) female terminals at both ends. Cable is available in 6", 12" and 24" lengths. Ideal for creating your own header to header cable to suit your application using our KK connectors.

Features:

The diagram above illustrates how you can create your own 1x4 to 1x4 pin-out cable with 4 pcs of crimp wire and 2 pcs of 1x4 terminal housings. The terminal housings can be purchased separately at our web store or as option below.

Basically, with some creativity, you can design and make your own, almost any kind of pin-out cable to suit your needs. With pre-crimp wires, connection between 2 headers becomes so easy.

Specifications:

- Terminal Crimped Wire - F to F
- Product Lengths:
6 inches length

12 inches length
24 inches length

- Terminal: 0.1 inch (2.54 mm) pitch terminal - female

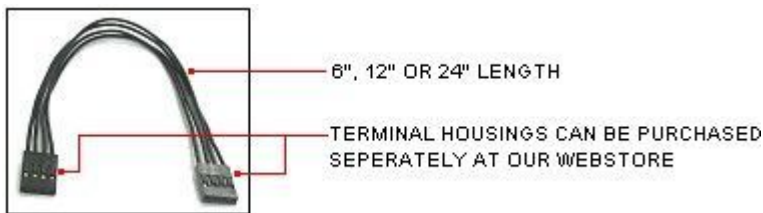

To add connectors or have us assemble your cable and sleeve it, please choose from the options below.
