Short Description

Product Details:

B2 ATX Game Case

B2 Bomber ATX mid-tower Gaming Case...Modeled after one of the most recognizable jets in the world, the features of the all-new In Win B2 Bomber will surely get you noticed amongst a crowd of gaming elites. If the auto-sensing front door doesn't do it for you, perhaps the W-shaped side intakes inspired by the Stealth Bomber will. Throughout the chassis you'll find four high quality ceramic fans, lasting longer and running quietly to provide a superb cooling process. Ultimately stylish and completely innovative, this chassis will have you "flying" over the competition.

Features:

- Unique Dark Metallic Plastic Panels with 0.8mm Japanese Steel
- (2) 3.5" & (4) 5.25" External and (5) 3.5" Internal Drive Bays
- Front I/O ports include (2) eSATA, (2) USB 2.0, (1) IEEE-1394a/FireWire, HD/AC'97 Audio
- (7) PCI/AGP Expansion slots
- Smart-3D UniDuct 12cm Ceramic Fans at Front & Rear Panels
- VGA Turbo Cooling System with 8cm Side Ceramic Fan x 2
- Supports Water-Cooling; Padlock loop for security
- Meets RoHS, CE and FCC Class B Requirement
- Accepts ATX 12V Power Supply (not included)
- 9.3"W x 17.1"H x 20.7"D
