Short Description

We finally found this elusive tape! PPCS Superstrong is a double-sided adhesive thermally conductive adhesive transfer tape (12mm (1/4" x 7.5 meters (24.5') long roll) with very strong adhesive power, excellent heat conductivity and very good heat resistance. Recommend for sticking thermal sensors onto heatsinks and other points of temp monitoring in your chassis. This is the stuff that always gets messed up and you never know where to get more.
