Description

Another handy custom made product from Performance-PCs.com! This is a genuine Lian Li 5.25" bay cover that has (1) one marine grade 12v DC Power port installed and a 12v DC Cigaretter Lighter. Price includes all wiring, sleeving and installation of 4-pin Molex for easy connection to your PSU. You have choice of bay cover color below. Now you can plug in all you auto accessories, cell phone charger, GPS, or any of a number of portable travel equipment like coffee pots, toasters, and other devices to make those late night snacks at LAN parties!

This 12 volt receptacle is manufactured from corrosion resistant marine grade materials. An unique interconnecting system securely locks the plug into the receptacle resulting in a positive and moisture proof connection. Simply line up the tabs on the plug with the arrows on the receptacle and press the plug into the receptacle until it seats. The plug is locked into place. To remove the plug, just rotate it 20 degrees and pull out. Receptacle features a watertight sealing cap, and is easy to install.

Great looking!

Specifications
