Short Description

RAIDER: With its 6000 DPI precision, the same adhesive strength than the KILLER, it is a long-lasting pad that offers a nice glide and a neat finishing.

Description

RAIDER: With its 6000 DPI precision, the same adhesive strength than the KILLER, it is a long-lasting pad that offers a nice glide and a neat finishing.

Its intermediate size, between the one of the KILLER & WINNER (268 x 230 x 2 mm), will appeal all the gamers who want the best pad for under \$30.00

Designed to fulfill the needs of all demanding gamers, RAIDER has the same technical features as its successful elders: KILLER 2 & WINNER 3

Specifications

- 6000 DPI - Random micro-mirrors to detect and amplify the optical and laser signal.
- ALERTING FRAME - To instinctively re-center the gamer on the pad.
- ADHESIVE STRENGTH - Its cellular foam sticks to surfaces by micro-suction.
- ERGONOMIC DESIGN - Size 268 x 230 x 2 mm.
- MONO-COMPONENT FOAM - Long-lasting pad.
