\$99.00

Product Images

Short Description

Custom designed radiator grill from Performance-PCs.com is made specifically for the Magicool NOVA 9 x 120mm Radiator. The

radgrills are precision Waterjet cut from 18 gauge steel and powder coated for a finish that is both tough and beautiful! This is made only for the Nova radiator and will not fit any (3) triple rads.

Description

Custom designed radiator grill from Performance-PCs.com is made specifically for the Magicool NOVA 9 x 120mm Radiator. The radgrills are precision Waterjet cut from 18 gauge steel and powder coated for a finish that is both tough and beautiful! This is made only for the Nova radiator and will not fit any (3) triple rads.

Installation:

1. Cut your square hole, no more complicated cuts. Does not need to be a perfect cut since the grill will cover your cut!
2. Fasten your fans and radiators to the grill with the screws of ypur choice that are NOT included.
3. Place the entire assembly in the opening you cut in step 1, by using screws and bolts of your choice that you must provide, and fasten to the case
4. You are done, enjoy your new beautiful Mod!

Price includes Radgrill only and no other hardware.
