

Arctic Cooling Freezer 7 LP (Low Profile)

\$24.95

Product Images

Short Description

Most small chassis users find it difficult to buy a suitable cooler replacement that fits the size of their PC case. Freezer 7 LP, a cutting edge Intel CPU cooler especially designed for media centre users to fulfill their needs.

Description

Low Profile Intel CPU Cooler optimized for Slim Cases

Most small chassis users find it difficult to buy a suitable cooler replacement that fits the size of their PC case. Freezer 7 LP, a cutting edge Intel CPU cooler especially designed for media centre users to fulfill their needs.

Slim Beauty

The revolutionary heatsink design of the Freezer 7 LP reduces the size of the cooler dramatically, leaving it only 40mm slim (to the air intake level) and 263g light, almost half the weight of usual CPU coolers. With this ultra thin dimension, the Freezer 7 LP easily fits into any small chassis with limited space.

Freeze and Breeze

Apart from its lightweight and low profile design, the Freezer 7 LP also performs excellent cooling execution. Two heatpipes, 40 fins and an 80mm PWM fan dissipate heat from the CPU core efficiently and rapidly. Together with the highly thermal conductive pre-applied MX-2 thermal paste and voltage regulator cooling, the Freezer 7 LP is 20% cooler (thermal resistance) than the

generic E8500 low profile cooler, giving media centre users an unexpected cooling experience.

The Art of Silence

Like other ARCTIC COOLING products, low noise impellers and patented fan holder are used to minimize the noise level. Even though spinning at full load, the Freezer 7 LP generates only 0.5 Sone of noise - 71% quieter than the Intel low profile cooler.

Features

- Dual Heatpipes Design
- Optimized Heatsink Design for Low Profile Intel Systems
- 80 mm PWM Fan
- Patented Fan Holder eliminates the Humming Noise
- Pre-applied High Performance Thermal Compound
- Easy Installation via Push Pins
- Light Weight, Transport Save
- 6 Years Warranty

Specifications

Dimension	109 L x 108 W x 42 H (to air intake level) / 53 H (with fan holder) mm
Weight	263 g
Fan	80 mm x 1
Fan Speed	600 ~V 2000 RPM (controlled by PWM)
Air Flow	28 CFM / 47.6 m3/h
Maximum Cooling Capacity	90 Watt

Additional Information

Brand	Arctic
SKU	ACFZ7LP
Weight	2.0000
Compatibilty	Intel LGA 775
Material	Copper/Aluminum
Fan Dimensions	80mm
Fan Connection	4-Pin PWM
