Short Description

The Delta AFB1212HHE is their highest output 120x38mm AFB series part, with an impressive 120+ CFM. It can be controlled by most respectable fan controllers thanks to its reasonable 5.52 watt power requirement. It utilizes the traditional AFB blade design, features a tach output and like every Delta we stock, uses ball bearings for long life. In addition, it is available in a 3 or 3+4 pin configuration, with or without our traditional black on black sleeving.
