Description

Stainless steel shielded hose clamp with zinc-plated screw. Also known as a worm-drive clamp, or smooth band clamp. These stainless steel shielded hose clamps are made to fit 3/4in.OD tubin.

Price is per clamp

Features:

- Smooth inner band with rounded edges to protect your tubing.
- Durable and corrosion resistant.
- Reusable and offers a longer lasting hold over nylon hose clamps.
- Band measures 13mm wide by 0.60mm thick.

Installation Notes: Tighten screw with Phillips screwdriver, or hex key. To avoid leaks, always check clamps on a regular basis especially after relocation of case or components.
