MNPCTech provides some of the coolest and most sought after Mods in the computer modding industry! This new aluminum switch plate is CNC machined aluminum and is perfect for adding a combination 16mm and 22mm Power and Reset buttons in a very classy way to your current computer PC case. This plate provides a clean installation once you cut a rectangle smaller than the plate. No one will see your cut but only your super clean billet plate!

Features (Billet bezel):

- Switch bezel machined by Mnpctech in 6061 billet aluminum. Machined finish. (not polished).
- Silver Aluminum Finish

Specifications

Specifications (Billet bezel):

- Length = 3.5"
- Width = 1.5"
- Thickness = 3/16"

Includes:

- Billet aluminum plate with two switch holes
- 4 stainless steel 6/32 x 3/4" button socket cap screws and nuts used to install
- Lian Li aluminum 5.25" bay cover

NOW IN STOCK WE ALSO HAVE LATCHING ON/OFF Vandal switches. Please choose from the options below the right style. An ON/OFF latching switch would be for turning on fans and lights, etc.
