Short Description

You've just gotten home. It's dark but you still have e-mails to write, people to chat with, blogging to do. While everyone else is in the dark, you're getting ready to shine. Don't you deserve a keyboard that shines with you?

Description

You've just gotten home. It's dark but you still have e-mails to write, people to chat with, blogging to do. While everyone else is in the dark, you're getting ready to shine. Don't you deserve a keyboard that shines with you?

Features

Type easily—even in the dark.

- Bright, laser-etched, backlighting keys: Provide precise illumination that can be adjusted to suit your needs. Only the characters are illuminated, so you get just the right amount of light.

Cutting-edge design.

- Ultra-thin, 9.3 mm profile and transparent frame: Make a bold statement and add an elegant touch to any desk.
- Sleek, minimalist design: The ideal combination of form and function, the Logitech Illuminated Keyboard gives you exactly what you need from a keyboard.

First-class comfort and control.

- PerfectStroke™ key system: Gives you more key travel than typical notebook keyboards. Research shows that a longer distance required for each keystroke (key travel) improves your typing experience. Every stroke is comfortable, fluid, and silent. Tested for up to 10 million keystrokes.
- Soft-touch palm rest and full-size key layout: Make your typing experience more comfortable—even after extended use.
- One-touch multimedia controls: Includes volume controls for music and video. Enjoy instant access to your favorite applications, including your media player, e-mail, browser, and more.
