

PWM Wye "Y" Cable - Sleeved

\$7.95

Product Images

Short Description

Custom PWM cable will split one PWM header to two male sockets (1) 3-pin and (1) PWM 4-pin to enable connecting 2 fans to one connection. 4 Pin Female PWM to (1) 4 Pin Male PWM and (1) 3-pin standard fan. Please note you can only have one fan on a PWM

header that is PWM and RPM and so you cannot mix signals from 2 fans for control/signal.

Description

Product Details:

Custom PWM cable will split one PWM header to two male sockets (1) 3-pin and (1) PWM 4-pin to enable connecting 2 fans to one connection. 4 Pin Female PWM to (1) 4 Pin Male PWM and (1) 3-pin standard fan. Please note you can only have one fan on a PWM header that is PWM and RPM and so you cannot mix signals from 2 fans for control/signal. Therefore the one 4-pin PWM has all 4 wires with the yellow for RPM and Blue for PWM signal. The other 3-pin connector has two wires of red for 12V and black for ground just for powering the fan. For any hardware using a 4-Pin PWM power connector like some Intel CPU coolers for Socket 775.

Cable is sleeved and is 12" long

Cable is fully covered in nylon Techflex sleeving and premium heatshrink, colors of your choice!

Additional Information

SKU	PWM-Y
Weight	0.1000
Color	Black
Cable Type	4-Pin PWM Splitter
