

Cooler Master ThermalFusion 400 Ultimate Thermal Compound - Retail Package

\$9.95

Product Images

Short Description

ThermalFusion 400 is a supreme thermal compound that includes high thermal conductivity with low thermal resistance. Its non-curing and non-electrical conductive traits can avoid any short circuit incidence. ThermalFusion 400 is the ultimate solution for thermal dissipation to improve CPU, GPU cooling and other bonding applications. The best thermal compound we have ever offered!

Description

ThermalFusion 400 is a supreme thermal compound that includes high thermal conductivity with low thermal resistance. Its non-curing and non-electrical conductive traits can avoid any short circuit incidence. ThermalFusion 400 is the ultimate solution for thermal dissipation to improve CPU, GPU cooling and other bonding applications. The best thermal compound we have ever offered!

Note: This Item can not be shipped using DHL

Features

- Specially formulated and recommended for best performance with V8 and V10 super coolers
- High Thermal Conductivity
- Low Thermal Resistance
- Non-Curing
- Non-Corrosive
- Easy Application with Included Razor Blade

Specifications

Color	Gray
Specific Gravity	3.5
Thermal Conductivity	2.89 (W/m-K)
Volume Resistivity	2.0E+10 (ohm-cm)
Thermal Resistance	0.032 (°C-cm ² /W)
BLT (Bond Line Thickness)	0.008 (mm)
Volatile content	<0.1 span="">
Net Weight (g)	4

Additional Information

Brand	Cooler Master
SKU	RG-TF4-TGU1-GP
Weight	0.4000
TIM Type	Paste
Vendor SKU/EAN	884102002687
