

ENZOTECH EVGA-790i Low Profile Northbridge Chipset Cooler for eVGA Motherboards

\$29.95

Product Images

Short Description

Product Details:

EVGA-790i is a high performance, low profile Northbridge chipset cooler which is custom designed for the EVGA motherboard. Forged copper forming results in high density and no interface gaps, which provides the best thermal performance available.

Features:

- User friendly , push pin design for quick and secure installation in seconds
- Pure Forged Copper results in a more efficient, denser material than traditional heatsinks. Best-in-class thermal conductivity available maximizes heat dissipation

- Artic Silver® Céramique™ Thermal compound insures the best result possible

Specifications:

Dimension	76*61*20.7(H) mm
Weight	175g
Material	Forged copper 1100
Base Flatness	Polished mirror surface, flatness for machined surfaces are typically in the range of 0.0003" to 0.0004"per inch
Fan	AD0612LB-G76 23dB/A 3500rpm 12V

Additional Information

Brand	Enzotech
SKU	EVGA-790i-D
Weight	1.0000
Heatsink Type	Northbridge
Material	Copper
Fan RPM	3500
