Description

Following the overwhelming success of the full tower HAF 932, Cooler Master extends the HAF (High Air Flow) line to a mid tower in the HAF 922. This beastly chassis comes with rugged looks, massive air flow, and Cooler Master's trademark intelligently designed interior. Building the mean, dream machine is now well within reach.

Superior Cooling Performance:

Extreme cooling performance that supports up to seven cooling fans overall, including three 200x30 mm fans at minimum noise. The spacious interior can accommodate a radiator for liquid cooling system and high-end hardware.

Cable Management System:

Unbeatable cable management made for less clutter and system maintenance by allowing ample room behind the motherboard. The motherboard tray includes access openings for cables to rout in or out of the chassis, preventing damages to cables/components.

Features

- Provides extreme airflow, uncompromising cooling performance, and ruggedly strong protection.
- Accommodates demanding high-end components, including full length graphics cards.
- CPU cooler retaining hole designed for quick CPU cooler installation.
- LED ON/OFF switch for front 200 x 30 mm fan.
- Patented button design for easy maintenance of 5.25" drive devices.

- Bottom fan can be set facing up or down to increase airflow throughout the case.
