Description

Koolance (patent-pending) quick-disconnect shutoff valve. G 3/8 threaded male nozzle for screwing directly into a water block or

other component of same threading. It will fit any Koolance VL4

After a quarter twist, the quick-disconnect nozzles will separate. Liquid on both sides will be automatically obstructed with only 0.5-1mL freed. Nozzles are nickel-plated brass, silicone o-rings. Extreme Flow female shutoff valve.

NOTE: Liquid Coolants Koolance's product warranty does not cover the use of 3rd-party coolants, coolant additives, or corrosion. Koolance LIQ-702 or LIQ-705 coolants are strongly recommended to help avoid issues with mixed metals or biological growth. Additionally, do not use aluminum with bare (unplated) copper or bare (unplated) brass in the same system. Do not use silver with nickel in the same system.
