Zinc Plated steel hose clamp with zinc-plated screw. Also known as a worm-drive clamp, or smooth band clamp. These zinc plated steel hose clamps can be adjusted to fit tubing with measurements of 1/2in.OD.

Description

Zinc Plated steel hose clamp with zinc-plated screw. Also known as a worm-drive clamp, or smooth band clamp. These zinc plated steel hose clamps can be adjusted to fit tubing with measurements of 1/2in.OD.

Price is per clamp

Features:

- Smooth inner band with rounded edges to protect your tubing.
- Durable and corrosion resistant.
- Reusable and offers a longer lasting hold over nylon hose clamps.
- Band measures 8.85mm wide by 0.60mm thick.

Installation Notes: Tighten screw with Phillips screwdriver, or hex key. To avoid leaks, always check clamps on a regular basis especially after relocation of case or components.
