### Product Details:

A new dimension in gaming!

The Creative Digital Wireless Gaming Headset HS-1200 is the world's first X-Fi powered headset using robust 2.4GHz radio frequency. The advanced 2.4GHz technology allows multiple wireless headsets to operate at the same time while supporting both audio and voice streaming simultaneously. Embark on the ultimate gaming experience where realistic in-game audio and life-like vocals are delivered through the powerful 40mm Neodymium drivers. From its soft leatherette headband to the plush earcups, get ready to enjoy hours of comfortable gameplay.

## Features

---

Features:

-  **Wireless freedom**  
Do away with unnecessary wires as you move and interact with your games like never before. The wireless headset lets you concentrate on your games fully as the 2.4GHz technology supports both audio and voice transmission up to a maximum range of 22m (72 feet).
-  **Powered by Sound Blaster® X-Fi™ technology**  
The X-Fi Crystalizer restores detail and vibrancy, letting you experience ultra-realistic gaming cues. Locate your enemies immediately for the X-Fi CMSS-3D expands ordinary stereo to stellar surround sound while the Creative ALchemy restores stereo gaming audio under Windows Vista®.
-  **Flexible noise-canceling microphone**  
The sensitive noise-canceling microphone is capable of blocking out ambient background noise to capture your voice only. Its swivel design also allows you to switch the microphone on and off easily while adjusting it to an angle you are most comfortable with.
-  **Simple plug and play**  
The HS-1200 is built to complement Windows Vista and Windows® XP to deliver true plug and play capability. Install X-Fi to enjoy the ultimate audio experience.
-  **Charge up**  
Get up to 8 hours of non-stop entertainment! Charge the headset through any powered USB port, even while using it.
-  **Compatible for Voice over Internet Protocol (VoIP) applications**  
The dedicated earcup control buttons optimized for Windows Live™ Messenger allow you to manage calls conveniently. You can even adjust the volume on the earcup itself. Works great for Skype™ too!
