Short Description

Product Details:

The AC to DC Adapter - 110v AC to 12v DC Converter w/ 4-Pin Molex is perfect for cooling needs not powered by a computer power supply. Using this device you can run a single standard 12V fan directly from the wall socket. Without the need for a ATX power supply, you can cool virtually anything. PPCS recommends using this adapter for home theater cooling needs, as well as, overheating desk and entertainment cabinets that are in dire need of an exhaust fan.

Features:

- Great for hooking up 12v DC fans or lights without the need for a computer power supply.
- In-line ferrite bead to prevent high frequency electrical noise from effecting your system.
- UL Listed
- Requires less power and minimum background noise
- 4 pin Molex Adapter with 40" Power Lead
- 6 ft - 110V Power Cord

Specifications:

Model:	Z1200800
Input:	100-240VAC 50/60Hz 0.3A 50/60 Hz
Output:	12V - 500MA
