Description

The Cogage MST-140 heatpipe CPU cooler has many features that allow it to cool even the hottest Intel LGA775 and 1366 chips all while retaining a silent operating environment. The included large 140mm high

performance fan quickly exhausts heat from the lightweight aluminum fins that was transferred there via the 4 nickel-plated heatpipes. The down-draft design is perfect for low profile cases such as HTPC applications or any situation where the rest of your components (RAM, voltage regulators, northbridge) could benefit from additional cooling. If you're looking for a low profile CPU cooler for your Intel Core i7 or core 2 duo that offers extreme performance at a great price, look no further than the Cogage MST-140!

Features

- Down draft airflow
- Supports all Intel Core i7 processors
- Large surface area cooling (140 x 140mm)
- 4 large nickel plated heatpipes
- Low profile, great for HTPC applications
- Each fin is soldered to the heatpipe for the highest heat transfer

Specifications

Brand	Cogage
Model	MST-140
Compatibility	<div><div></div>Intel Core i7 LGA1366 Socket B</div> <div><div></div>Intel Core 2 Duo LGA775 Socket T</div>
Heatsink Dimensions	144 L x 147 W x 70.2 H mm
Fan Dimensions	140 L x 140 W x 25 H mm
Weight	410g
Material	Copper base with 4 heatpipes and aluminum fins
Fan Speed	1500 RPM
Air Flow	94.7 CFM
Noise Level	33.5 dBA
Power Connector	3-Pin
Cable Length	31 cm
Package Contents	MST-140 Heatsink, 140mm Fan, LGA775 and LGA1366 mount, 2 120mm wire clips, 2 silicone fan dampeners, thermal compound, Cogage sticker and instruction manual

Additional Information

SKU	MST-140
Weight	2.0000
Material	Copper/Aluminum
Fan Dimensions	140mm
Fan Connection	4-Pin PWM
Special Price	\$27.95
