StarTech SATA to Compact Flash SSD Adapter

$39.95

Product Images

Short Description

Product Details:

This SATA to CF SSD adapter features a SATA male power connector and a SATA male data connector, as well as a Compact Flash port, allowing you to connect a Compact Flash type media card to a laptop computer in place of a serial ATA hard drive.

A Do-it-yourself SSD solution, the CF to SATA adapter allows Compact Flash, Compact Flash 2, or MicroDrive media to be used on a notebook computer as a bootable hard drive and requires no software or driver installation.

Features:

- All-in-one on board solution takes care of conversion. No software/drivers or cables required
- Compatible with Compact Flash I/II, MicroDrive™
- Convert your CF for use as a SSD (solid state drive)
- Reading-performance, anti-shock ability and tolerance of the the temperature difference are better than traditional hard drives
- Use your Compact Flash card to act as the primary bootable device
- With no moving parts, provides a silent operation that is resilient to environmental factors while reducing overall power consumption

Applications:

- Ideal for system builders and testers requiring a convenient way to swap drives and operating systems

- Use a compact flash card as a bootable SATA hard drive

Specifications:

Warranty	Lifetime warranty

Connectors	1 x SATA (22 pin, data and power)
Carton Quantity	40
Shipping (Package) Weight	0.27 lb [0.12 kg]
Product Weight	0.71 oz [20 g]
	1 x Compact Flash Slot
Cards Supported	Compact Flash Type I, II, and MicroDrive
NOTE	Hot swapping not supported
