Short Description

This IDE/ATAPI to SATA adapter lets you connect a SATA drive to a motherboard IDE/ATA 33/66/100/133 port.

The IDE/SATA adapter offers a cost-effective solution for bridging the gap between a newer SATA drive and older motherboard designs, allowing you to connected newer SATA drives to a older IDE motherboard port and in tern eliminating the need to upgrade motherboard for the sake of compatibility with the drives.

Description

Product Details:

This IDE/ATAPI to SATA adapter lets you connect a SATA drive to a motherboard IDE/ATA 33/66/100/133 port.

The IDE/SATA adapter offers a cost-effective solution for bridging the gap between a newer SATA drive and older motherboard designs, allowing you to connected newer SATA drives to a older IDE motherboard port and in tern eliminating the need to upgrade motherboard for the sake of compatibility with the drives.

Saving time and hassle, the IDE to SATA adapter can be connected through simple plug and play installation and is backed by a Lifetime Warranty and free lifetime technical support.

Applications:

- An internal solution for connecting your SATA hard drive to a motherboard supporting an IDE interface.
- Ideal for use with older motherboards that do not support SATA.

Features

Features:

- 48 bit addressing supports larger capacity drives
- Compatible with Ultra ATA 133 specifications
- Complete hardware solution, no software needed. Works with PC, MAC, and Linux.
- Serial ATA 1.0 compliant
- Simple Plug and Play installation
- Supports all types of 2.5" and 3.5" SATA storage devices.
- This all in one solution includes the appropriate power cables to convert your SATA power connector to LP4.
