Description

Apevia' s LCD Power Supply Tester allows fast and easy test for your power supply. Pocket size with a LCD screen to show all the ATX power voltages on +12V1/+5V/+3.3V/5VSB/+12V2/-12V and P.G. With alarm warning any abnormal voltage, this power

supply tester is one of the best in the market. Just connect the 20-pin or 24-pin main connector from the ATX power supply to this LCD power supply tester and plug in P4/P6/P8 to show the voltage on the screen. Made of quality aluminum material, this power supply tester helps you easily diagnosis the problem source and prevent possible damage to your system. It's a small investment for a "must have" tool for pc builders.

Features

- Pocket size with a LCD screen to show all the ATX power voltages
- Used in 20pin/24pin, 12V P4/P8, 4pin molex, floppy, SATA, PCI Express connectors.
- User's manual on the back of the retail package
- Retail package for retail display hook
