

Koolance Pump Nozzle & Reservoir Base Rev. 2.1 for PMP-450/S - Acetal

\$59.95

Product Images

Short Description

COV-RP450 Rev. 2.0 is an acetal nozzle and reservoir base for the Koolance [PMP-450](#) and [PMP-450S](#) pumps (sold separately). Along with enabling the use of any G 1/4 BSP threaded nozzle style and diameter, it allows flow to be specifically directed for increased pump performance or broader chassis integration.

Description

COV-RP450 Rev. 2.0 is an acetal nozzle and reservoir base for the Koolance [PMP-450](#) and [PMP-450S](#) pumps (sold separately). Along with enabling the use of any G 1/4 BSP threaded nozzle style and diameter, it allows flow to be specifically directed for increased pump performance or broader chassis integration.

Koolance TNK-BDxxx acrylic reservoir bodies can be directly connected to the COV-RP450 Rev. 2.0 by using the included reservoir coupler.

A solid aluminum cover sleeve for the pump, 120mm fan grill mounting bracket, nozzle socket plug, pump O-ring, noise insulation washers, and bracket hardware are included.

Additional Information

Brand	Koolance
SKU	COV-RP450
Weight	2.0000
Color	Black
Pump Type	Laing D5
Material	Delrin (POM)
Vendor SKU/EAN	829596904123
