Short Description

Thermaltake ST0014U BlacX Duet Dual Hard Drives Docking Station

This dual drive SATA HDD Dock provides fast, convenient access to 2.5" or 3.5" SATA or SATA II (SATA /300) hard drive contents through either USB or eSATA, without ever having to open a computer case or mount hard drives in an enclosure.

Description

Thermaltake ST0014U BlacX Duet Dual Hard Drives Docking Station

This dual drive SATA HDD Dock provides fast, convenient access to 2.5" or 3.5" SATA or SATA II (SATA /300) hard drive contents through either USB or eSATA, without ever having to open a computer case or mount hard drives in an enclosure. Supporting one or two drives, Thermaltake ST0014U BlacX Duet Dual Hard Drives Docking Station can be connected to the host computer through either USB 2.0 or eSATA - then, it's just a matter of inserting the desired 2.5" or 3.5" SATA/SATA II hard drives (or combination of both) into one of the two (or both) docking station slots for instant access.

The docking station supports plug and play installation on most operating systems, making it a perfect solution for data recovery, drive imaging, software testing, or any environment that requires fast access to massive amounts of data (uninstalled or archived hard drives etc.). Plus, Thermaltake ST0014U BlacX Duet Dual Hard Drives Docking Station features a small form factor design that requires minimal desk space for permanent connection to the host computer and provides enough hard drive surface exposure to optimize dissipation of operating heat.

The Thermaltake ST0014U BlacX Duet Dual Hard Drives Docking Station supports any 2.5" or 3.5" SATA (SATA 150, SATA 300/SATA II) hard drive, up to 1TB, and data transfer speeds of up to 3 Gbps (using eSATA) and 480Mbps (using USB 2.0) between host and dock - ensuring effortless data dumps or backups and hassle-free file transfers. So be sure to pick up the Thermaltake ST0014U BlacX Duet Dual Hard Drives Docking Station today!

Features

Features:

-  Read & Write 2 Hard Drives simultaneously
-  Supports All 2.5" & 3.5" SATA Hard Drives up to 2TB (per slot)
-  Hot-Swap Capability for Rapid Multi HDDs Access & Exchange
* When utilizing eSATA interface, Port Multiplier feature is required on the host system's eSATA controller for two hard disk drives to be seen at the same time. All USB supports Port Multiplier function.
-  Supports eSATA Transfer Speed up to 3.0 Gbps
-  Supports USB 2.0 Transfer Speed up to 480 Mbps
-  Windows & Mac OS Compatible
-  Rapid Data Access & Exchange w/ Single eSATA or USB Cable Connection
-  Open docking station design maximizes heat dissipation
-  RoHS Compliance
-  SSG (Solid State Grip) Technology: Anti-Slippery Grasp Base

Specifications

Specifications:

Enclosure Interface	eSATA USB 2.0
Transfer Rate	eSATA: up to 3Gbps USB 2.0: up to 480Mbps
HDD Compatible	SATA I SATA II
HDD Capacity	All 2.5" or 3.5" SATA HDD up to 2TB (per slot)
OS Compatible	Windows 7 / Vista / XP / 2003 / 2000 ; Mac 10.3 and later

Material	ABS Plastic
Power	Input: 100-240V / 50-60Hz ; Output: 12V / 2A
Dimension	140 (W) 120.82 (D) x 69.49 (H) mm 5.51 (W) x 4.76 (D) x 2.74 (H) in
Accessory	eSATA Cable USB 2.0 Cable Power Adaptor
Fan	N/A
Weight	3 lbs
Special Features	<ul style="list-style-type: none"> • Copy & Transfer data between Hard Drives & Computers • Hot-Swap Capability for Rapid Multi HDDs Access & Exchange • Compact Docking Station Design maximizes Heat Dissipation & Exhaust • Supports eSATA Transfer Speed up to 3Gbps

Additional Information

Brand	Thermaltake
SKU	ST0014U
Weight	4.0000
Device Type	Docking Station
Bay Size	3.5"/2.5" Bay
Vendor SKU/EAN	Discontinued
