Short Description

Evercool introduces the ideal notebook cooler. The NB-FT1 or FIT, as the cooler is called, is an improved version of Evercool's Magic notebook cooler, which was launched in 2006.

Description

Evercool introduces the ideal notebook cooler. The NB-FT1 or FIT, as the cooler is called, is an improved version of Evercool's Magic notebook cooler, which was launched in 2006. The Fit is to differentiate itself by combining a compact size, light weight and stylish finish. The device has the appearance of an oversized USB-flashdrive and is compatible with almost every notebook, ranging from 9-inch netbooks to 18-inchs desktop replacements.

The NB-FT1 is sized 55 x 85,3 x 25 mm and is powered by a USB-port. To support the cooler, a folding stand has been added. A small 3500 RPM sits on the inside of the cooler. Evercool claims that the sound production of the fan stays beneath 25 dB(A). The cooler weighs only 60 grams, making it quite a portable solution.

Features

- To take out the heat inside the laptop, keep the smooth operation and lengthen laptop' s lifetime.
- Unique multi-angles adjustment design enlarges its compatibility for all 9''~18'' size laptops.
- Easy to use and no assembling process.
- Simple and small for easy carry.
- Weighted only 60g. Compared with other bulky NB cooling pads, it is very suitable for storage, and carry.
- Modeling style integrates techniques and aesthetics. To be able to use alone or collocate with notebook cooling pad.
