

Phobya Premium Thermal Sensor Cable

\$0.89

Product Images

Short Description

SMD-temperature sensor with cable and 2-pin connection. This model is similar to the used sensors of thermometers which are available in shop, as well as those of Digital Doctors. This sensor is of course all-purpose in other devices as well.

Description

SMD-temperature sensor with cable and 2-pin connection. This model is similar to the used sensors of thermometers which are available in shop, as well as those of Digital Doctors. This sensor is of course all-purpose in other devices as well.

Features

- 500mm length for all kinds of chassis when monitoring
- Good insulation of heat and electricity, leave no damage and adhesive residue on surface

Application For:

- Temperature monitor Devices
- Motherboard temperature monitor
- Mobile rack temperature monitor

Specifications

Thermal Sensor	1 pcs
Connector Type	2- pin connector
Length	500mm (20 inches)
Operating Temperature Range	5~90 C Degrees
Dimension	10x20 mm
Operating Temperature Range	5~90 C Degrees
NOTE	The installation procedure will be varied. Please check with the device's manual before install.

Additional Information

Brand	Phobyra
SKU	PH-71005
Weight	0.1000
Msc Watercool	Temp Sensor
Vendor SKU/EAN	4049469009526
