$10.95

Product Images

Short Description

Product Details:

With the dark grey Revoltec brings another eye-catcher to the market. The fan features 4 color-matching LEDs. The frame and blades are made from transparent grey plastic. When in operation all 4 white LEDs light the fan's blades, creating a unique look. Whoever wishes to have attractive lighting for the PC has found the solution with this fan. Additionally the lighting of the fan does not just serve as an optical feature, it also allows the user to quickly check if the fan is still running. Who already has a case with a window kit can look forward to another piece of eye candy for the system. This fan is also interesting for CPU-cooling to light the cooler and ensuring great cooling performance at the same time.

The fan does not only look good, the technical aspects are also state of the art. The fan's speed can be monitored with Software tools of fan controllers and the fan can also be switched off by the PC when in Standby.
